## INTRODUCTORY NOTE.

**1. Scope of the Returns.**—The Annual Statement of the Foreign Sea-borne Trade of India is issued in two volumes:—Volume I contains the abstract and detailed tables of imports and exports of each *commodity* with shares of the importing and exporting maritime States of India in respect of each article and Volume II, the abstract and detailed tables of trade and shipping with each *country* and at each *port*, together with the tables relating to the trade of the French Possessions in India. The tables relating to the trade of Kathiawar and Travancore ports up to the year 1948-49 have been issued separately by this department.

In the interests of economy, the present volume is brought out as a combined issue, containing statistics for two fiscal years 1948-49 and 1949-50.

**2. Nature of the Trade recorded.**—The trade dealt with in the Sea-borne Trade Accounts is the trade by sea and air with Foreign Countries registered at the ports in the Indian States during a fiscal year April—March.

On account of the partition of the country into two separate entities *viz.*: — India and Pakistan with effect from the 15th August, 1947, the trade for 1947-48, dealt with in these Accounts, exclude the direct foreign Sea-borne Trade of the Pakistan provinces of Sind and East-Bengal with effect from the 1st and the 15th August, 1947, respectively. Figures for 1947-48 also exclude India's Sea-borne Trade with Pakistan up to February 1948.

The foreign Sea-borne Trade of Kutch has been included in the trade account of India with effect from the 1st June, 1948, and that of (1) Saurashtra, Okha and (Baroda) and (2) Travancore with effect from the 1st April, 1949. No adjustments consequent on the above changes have however been made in the figures for previous periods.

Government Stores which had been recorded separately up to 31st March, 1948 have been merged with private merchandise with effect from the 1st April, 1948. Separate registration of these stores has since been discontinued and combined figures of trade in private merchandise and Government Stores are published with effect from the 1st April 1948.

**3. Statistical year.**—All tables in this volume cover the five official years April to March, 1945-46 to 1949-50, except table 21, which shows figures for the two years 1948-49 and 1949-50.

**4. Abstract Tables.**—The summary tables in this volume show, first (tables 1, 2 and 3), the total value of imports, exports and re-exports as a whole, and secondly (tables 4 to 6), the total value of the imports, exports and re-exports of the principal articles, classified in groups under the following five main heads :—

- I. Food, Drink and Tobacco.
- II. Raw Materials and Produce and Articles Mainly Unmanufactured.
- III. Articles Wholly or Mainly Manufactured.
- IV. Living Animals.
- V.  $\left\{ \begin{array}{l} \text{Postal Articles not specified (under Imports).} \\ \text{Postal Articles (under Exports).} \\ \text{Articles imported as baggage (dutiabale) not otherwise specified (under Imports).} \end{array} \right.$

Imports from and exports to Commonwealth Countries are distinguished from those from and to Foreign Countries, and exports are divided into "Exports of Indian merchandise" and "Re-exports of Commonwealth and Foreign merchandise". The term "Indian merchandise" comprises all goods which are the growth, produce, or manufacture of India. Indian merchandise is distinguished from Commonwealth and Foreign merchandise in the declaration of shippers made in the shipping bills from which export trade statistics are compiled.

Tables 7 to 9 show the total value of imports, exports and re-exports from and to each principal country.

**5. Detailed Tables.**—Table 10 shows the quantity and value of imports of articles, both dutiable and free, from the principal and other countries of consignment and the shares of the maritime States of India. The articles are arranged in alphabetical order, provision being made for grouping together within the alphabetical order such articles as are related industrially or commercially. Certain articles are recorded in value only, but in most cases both the quantities and values are recorded.

Tables 11 and 12 show in the same order the exports to the principal and other countries of articles of Indian merchandise and of Foreign merchandise respectively.

The trade in each article with each country is recorded separately in these tables when its value is Rs.5,000 or more. If the value of the trade with any country in any particular article is less than Rs.5,000, it is generally grouped under one of the heads—"Other Commonwealth Countries" or "Other Foreign Countries".

**6. Imports of Government Stores.**—Owing to the operation of a special system of clearance of Government Stores obtaining in Custom Houses full particulars required for trade registration are not generally available at the time of importation. The accounts are however adjusted later in so far as the wanting particulars are gradually collected. It has not, however, been possible as yet to cover the entire gap on this account.

Detailed tables relating to imports, exports and re-exports of Government Stores have been omitted from this issue consequent on the merging of Government Stores with Private merchandise with effect from the 1st April, 1948. The total value of trade of these stores up to 1947-48 is, however, available from Table No. 1 of this issue.

**7. Treasure.**—Imports and exports of gold and silver coin and bullion are also recorded separately and are not included in the tables relating to merchandise. Imports of gold by letter post are registered with effect from April, 1924, and included in the Accounts. The transactions in issued Indian currency notes are, with effect from April, 1922, registered separately under treasure.

Tables 16 to 22 show the imports and exports of gold and silver coin and bullion and of issued Indian currency notes from and to each country. Bullion, coin and currency notes are excluded from all general tables of imports and exports.

**8. Explanation of Imports and Exports.**—The tables relating to imports refer to goods landed, whether they are intended for home consumption, bonding, or re-exportation. Goods landed and afterwards re-exported are, therefore, included under "imports", even though imported on a through bill of lading, unless they are removed under bond from the importing to the exporting ships at the same or another port (when they are omitted from the general tables of imports and re-exports) because the accounts exclude transshipment trade at ports. Goods imported to be improved, are small and the "improvement" trade, such as is recognised in the statistics of some other countries, is not distinguished.

**9. Transshipment Trade.**—Indian ports are not transshipment centres for Foreign Countries to any considerable extent, and the trade returns accordingly take no account of merchandise transhipped.

**10. Transit Trade.**—Trade of Foreign Countries on the border of India passing in transit through Indian ports, on through bills of lading, from and to overseas Countries, which is already included in the general import and re-export trade tables respectively, is being separately recorded with effect from the 1st April, 1949. A separate table showing detailed transit trade from 1949-50, onwards, will be published in Volume II of this publication.

**11. Passengers' baggage.**—Imports of passengers' baggage are not included in the trade statistics unless they are dutiable. From April, 1936, dutiable articles imported as passengers' baggage have been grouped together under a separate head at the end of the import tables except in the case of (a) firearms, cartridges and other arms and ammunition, (b) wireless sets, (c) instruments, apparatus and appliances, (d) liquors and spirits, (e) furniture and carpets, (f) jewellery, (g) silverware and platedware including silver and plated cutlery and (h) vehicles including motor cars which continued to be included under the appropriate heads and sub-heads specified in the import returns.

**12. Ship's Stores.**—Ship's stores are not included in the trade statistics.

**13. Bunkers.**—Coal and Fuel Oil taken for use on board ships engaged in foreign trade are shown separately in the general tables of Exports or Re-exports according as they are of Indian or foreign origin. They are recorded in quantity only.

**14. Petrol and Lubricating Oil for Aircrafts.**—Petrol and Lubricating oil shipped in aircrafts for consumption during the outward journey have been shown separately in the general tables of Exports or Re-exports according as they are of Indian or foreign origin. They are recorded in quantity only.

**15. Parcel Post.**—Imports from and Exports to foreign countries by parcel post are included in the returns; dutiable articles imported by letter post are also included, but the contents of foreign letters despatched are not registered. Imports by parcel post of goods, whether dutiable or not, are not classified according to their nature, with the exception of the items noted in the following paragraph, but are separately recorded at the end of the tables and are entered by value only. Exports by parcel post are treated in the same way as imports by parcel post, and the values shown are approximate only.

From April, 1922, imports by post (including letter packets, registered and ordinary) of jewellery, precious stones, gold and silver thread cigarettes, and cinematograph films, referred to Collectors of Customs, for assessment, are being included with their appropriate head and sub-heads in the import trade returns. From April, 1936, watches imported by post are also being similarly included under the appropriate head.

**16. Special Statistics.**—Three separate tables 13, 14 & 15 have been inserted showing the imports, re-exports and exports of opium and other dangerous drugs into and from India.

**17. Countries to which Imports and Exports are credited.**—Throughout the tables in this volume *Imports* are classified as received from the countries whence they were *consigned* to India, and not, as in the corresponding volumes for 1910-11 and earlier years, as received from the countries whence they were shipped direct to India. The *countries of consignment* are the countries from which the goods have come, whether by land and sea or by sea only or by air, without interruption of transit save in the course of transhipment or transfer from one means of conveyance to another.

The countries whence goods are consigned are not in all cases the countries of actual origin or in the case of manufactured goods the countries in which the processes of manufacture were conducted or completed, since goods produced in one country may be purchased by a firm in another country and thence despatched, after a longer or shorter interval, to India. In such a case the second country would be the country of consignment, to which the goods would be credited in these tables.

*Exports* are credited in the tables to the country of *final destination*, i.e., the country to which they are consigned, whether that country possesses a seaboard or not, and not, as before, to the country containing the port of discharge as declared by the exporter in the shipping bills, whether carried there direct or after transhipment. The *country of final destination* is the country to which goods exported from India are intended to pass, whether by sea and land or by sea only or by air, without interruption of transit save in the course of transhipment or transfer from one means of conveyance to another.

In all tables of Volumes I and II\* where trade is shown according to countries, the countries included in the Commonwealth have been grouped separately from Foreign Countries, excepting in tables 4 to 7, 10 and 13 of Volume II, where geographical arrangement within the Continent is followed and in tables 13, 14 and 15 of Volume I exhibiting special statistics of the imports and exports of dangerous drugs.

### 18. Method of ascertaining Quantities and Values of Imports and Exports.—

The statements of both quantities and values are based on the declarations of importers in Bills of Entry and of exporters in Shipping Bills as subsequently checked by the Customs officials. The quantities are not recorded in every case, but where goods are entered by weight, the quantities given represent the *net* weight exclusive of packages, sacks, casks, tins, bottles, etc., in which they may be contained or of reels on which they may be wound. In certain cases, number, gallon, or yard is the denomination employed. Piece-goods are shown by linear yards, oil-cloth and floor-cloth by square yards, and liquors and oils generally by gallons. When weight is the prescribed denomination, different units (tons, cwts., lbs., and ozs.) are specified according to the nature of various articles and the different trade practice. According to the provisions of the Indian Sea Customs Act, VIII of 1878 (Section 30), the values of goods imported or exported are based on wholesale market prices, and represent—

- (a) the wholesale cash price, less trade discount, for which goods of the like kind and quality are sold, or are capable of being sold, at the time and place of importation or exportation, as the case may be, without any abatement or deduction whatever, except (in the case of goods imported) of the amount of the duties payable on the importation thereof; or
- (b) where such price is not ascertainable, the cost at which goods of the like kind and quality could be delivered at such place without any abatement or deduction, except as aforesaid.

In the tables of Imports and Exports of Treasure, the weight of gold has been shown in 'fine ounces' and that of silver, which was being shown in 'standard ounces', as far as possible meaning the British Standard ( $\frac{37}{100}$  fine) has, with effect from April, 1946, been shown in "fine ounces" and the corresponding figures for 1945-46 have been revised accordingly in this issue. The value of both gold and silver imported and exported, represents the market value at the time and place of import or export, except in the case of Government of India rupees and currency notes of which the face value is shown. The practice before April, 1921, was not uniform at all the ports.

19. **Unenumerated goods.**—Unenumerated goods, *i.e.*, goods not separately specified, are divided into "Unmanufactured" and "Manufactured" and are placed in the tables of imports and exports after all other goods recorded. These goods are entered by value only.

20. **List of Alterations.**—A list of alterations in respect of (1) Articles and (2) Countries, during the two years 1948-49 and 1949-50, is contained in Appendix A.

21. **List of Countries.**—A complete list of all the countries, the trade with which was separately recorded, as on the 31st march 1950, is shown in Appendix B. This list was revised practically on the lines of that prescribed by the Committee set up in terms of Article 8 of the International Convention relating to Economic Statistics with effect from April, 1933.

22. **List of maritime States of India.**—A list of the maritime States of India as on the 31st March 1950 is given in Appendix C.

23. **Index.**—An index to the articles alphabetically arranged, specified in the tables of Imports, Exports and Re-exports, is given at the end of the volume.

24. **Calendar Year Accounts.**—Separate compilation and publication of particulars of the import and export trade of India in principal articles according to the calendar year basis have been suspended for the time being.

# TABLES RELATING TO THE SEA-BORNE TRADE OF INDIA

Notes. (1)—The Fiscal Year commences on the 1st April and ends on the 31st March.

(2)—Government Stores, which had been recorded separately upto 1947-48 have been merged with Private merchandise from 1948-49. Separate registration of these stores has since been discontinued and combined figures of trade in Private merchandise and Government stores are published throughout this volume from 1948-49. No adjustments consequent on this change in the procedure of registration have however been made in the figures for the previous periods.
